An ASME Journal Article Created Using LaTeX2ε in ASME Format for Testing Your Figures

Harry H. Cheng
Professor, Fellow of ASME
Integration Engineering Laboratory
Department of Mechanical Engineering
University of California
Davis, California 95616
Email: hhcheng@ucdavis.edu

J. Michael McCarthy[*]

Editor, Fellow of ASME
Journal of Mechanical Design
Email: jmmccart@uci.edu

Third Co-author
Graduate Research Assistan, Student Member of ASME
Fourth Co-author[†]
Title, Member of ASME
Department or Division Name
Company or College Name
City, State (spelled out), Zip Code
Country (only if not U.S.)
Email address (if available)

This is the abstract. This article illustrates preparation of ASME paper using LaTeX2ε. An abstract for an ASME paper should be less than 150 words and is normally in italics. Please use this template to test how your figures will look on the printed journal page of the Journal of Mechanical Design. The Journal will no longer publish papers that contain errors in figure resolution. These usually consist of unreadable or fuzzy text, and pixilation or rasterization of lines. This template identifies the specifications used by JMD some of which may not be easily duplicated; for example, ASME actually uses Helvetica Condensed Bold, but this is not generally available so for the purpose of this exercise Helvetica is adequate. However, reproduction of the journal page is not the goal, instead this exercise is to verify the quality of your figures. Notice that this abstract is to be set in 9pt Times Italic, single spaced and right justified.

Nomenclature

A   You may include nomenclature here.
α There are two arguments for each entry of the nomemclature environment, the symbol and the definition.

The primary text heading is boldface and flushed left with the left margin. The spacing between the text and the heading is two line spaces.

1 Introduction

According to Hiei [1], there is everything.
According to Pryor [2], there is a little.
According to Wictorin [3], there is everything else. According to Fatsikostas [4], there is nothing.
According to Diamond [5], there is something. According to Lundgren [6], there is something.
According to Björklund [7], there is something else.
